June 3, 1970

Dear Sirs:

Mr. Louis Butman has invented what I believe to be a highly useful and marketable communion wafer. This wafer allows sanitary individualized participation in the communion loaf of all worshipers.

Mr. Butman is extremely interested in having your research department consider the production of this wafer on mass scale for national consumption. Religious groups like Churches of Christ that have weekly communion services and other groups that have quarterly and annual communion services would welcome such a service.

I will personally appreciate any consideration you give Mr. Butman's idea. Further communication should be directed to him at Route 2, Box 111, Merkel, Texas, 79536.

Sincerely yours,

John Allen Chalk
